Problems

Job seekers find text-based exploration problematic and tiresome

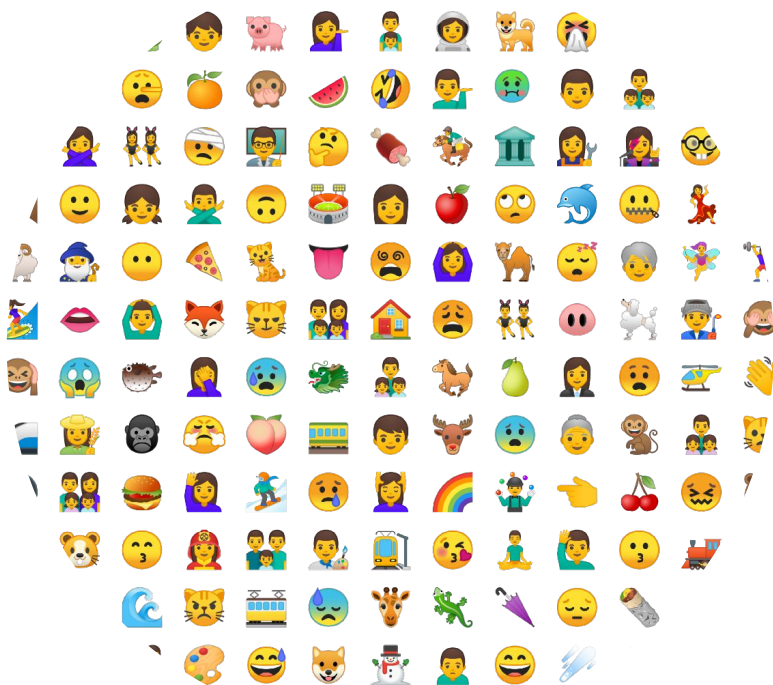

Existing Gaps

1. “So many jobs! Which is for me?”
2. “It was fun until now... I still have to read the long job description”

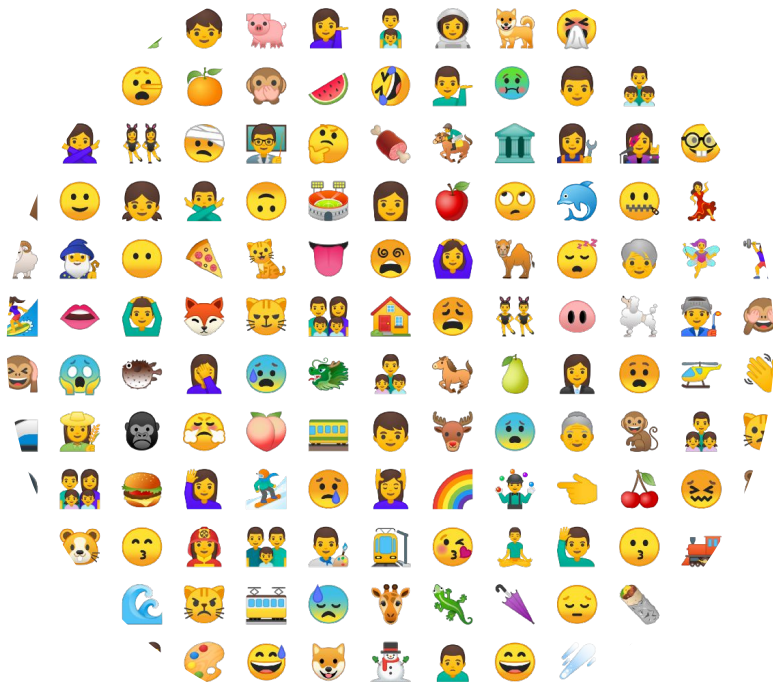

Visual Filter

1. Interactive experience to get to a matching job more quickly
2. See how many jobs you strike out with each filter

Job2Emoji - What?

Quick overview of long job descriptions with Emoji

Job2Emoji - How?

1. Detect Job Description pages
2. Fetch Job Description from JobTechDev
3. Detect entities and categories via Natural Language API
4. Translate into Emoji
